About the ITS Institute: The Mississippi Department of Information Technology Services (ITS) Education Services Division offers an ongoing educational program designed to enhance and improve the computer and communication skills of personnel within state government. The training program is commonly called the ITS Institute. The curriculum is structured so that a person with no experience can begin with an introductory course and, if appropriate, progress to highly advanced levels of information processing.

The ITS Institute uses an automated system for course scheduling, registration, permanent records, and student transcripts. This system provides the necessary documentation for state agencies and the students regarding their training accomplishments. Certificates are provided to students upon successful completion of courses.

During Fiscal Year 2012, ITS offered approximately 216 instructor led classes to approximately 1,059 students, representing numerous state agencies, universities, community colleges, and governing authorities. The Institute curriculum has been expanded as the demand for information systems skills has increased. The ITS Institute provides the necessary education and training to make state personnel more productive at a significantly lower cost than outside training sources.

Customized Training: The ITS Institute has the resources to provide instruction in almost any information systems area needed by state government employees. In addition to the regularly scheduled courses, we will design a class to meet your specific training needs. We also provide online training in conjunction with MindLeaders.

Continuing Education is the Key to Success:

The future of Mississippi government depends on efficient execution of the services it provides. State budget constraints make it imperative that agencies use information technology effectively to increase personnel productivity. If agencies cannot perform their tasks more efficiently, services which they provide cannot be maintained, much less expanded to meet pressing needs. Continuing education and training are essential for the effective planning, implementation, support, and use of these technological solutions. The ITS Education Services Division offers an excellent means of fulfilling these goals in a cost-effective way.

Other Services Offered by ITS:

ITS offers a variety of other services including on-site training assistance and follow-up, system analysis, design, programming, documentation, project management, feasibility studies, long-range planning, procurement, telephone services, and general consulting. If we can be of service to you in any of these areas, please call (601) 432-8000.

ITS Information

General Information

Welcome to the ITS Institute:

The ITS Institute, administered for the State of Mississippi by the Department of Information Technology Services, offers an educational program designed to enhance and improve the skills of information processing personnel within state government.

Facilities:

The ITS Institute is located at 3771 Eastwood Drive, in Jackson, MS. The Institute has two hands-on training labs. These labs are configured with a variety of PC applications and have communications capabilities with the mainframe at the State Data Center.

Instructors:

Highly trained individuals who work in the industry or are instructors at state colleges and universities teach ITS Institute classes. Instructors possess years of practical experience, as well as academic credentials. Constant monitoring and evaluation of instructors ensure that classes are taught by individuals with a wide range of knowledge, as well as exceptional teaching skills.

Registration:

Registration forms are included at the back of this catalog and must be returned 30 days prior to the class begin date to allow enough time to order materials for the courses. If it is impossible to have these forms returned by the date specified, please contact the ITS Institute and indicate the number of students to be enrolled in each course.

Class Size:

Class enrollment will be on a first-come, first-served basis. Class size is limited, and ITS reserves the right to establish class size and limit the number of students from each agency if the class size has to be cut. The ITS Institute reserves the right to cancel any class due to under-enrollment or other reasonable cause.

Textbooks & Materials:

The textbooks and materials used for each course are listed on the schedule. Each student must indicate on the registration form whether he or she needs materials for the course. Textbooks and materials will be ordered based on the information provided on the registration form.

Class Confirmation:

As soon as registration forms have been received and plans for the January to March classes have been finalized, students will be notified of the exact starting dates, instructors, and locations for each class at least two weeks prior to the first day of class.

Cancellations and Substitutions:

Registrants of ITS-conducted classes who cancel within 10 days of the first class meeting will be billed the full tuition. Registrants of vendor-conducted classes who cancel within 30 days of the first class meeting will be billed the full tuition. Substitutions are permissible any time prior to and including the day on which the course begins.

On-Line Training:

The ITS Institute has an agreement with MindLeaders to provide self-paced training to Mississippi public entities. State agencies, county and local governments, public schools, and institutions of higher learning are eligible to participate in this agreement. MindLeaders offers over 2,300 courses available via the Intranet or the Internet. Training is available anywhere, anytime. Please visit the ITS/MindLeaders website via the ITS website, www.its.ms.gov, for more course information.

Charges:

The total charge for ITS classes includes tuition, lab fee, and materials fee. See the schedule for estimated charges for individual classes.

Tuition for ITS classes is categorized as follows:

Course Type	State Employees	Non-State Employees
Overview courses less than 4 hours (IL)*	Free	\$100.00
Courses 10 hours or less (IL)*	\$100.00	\$400.00
Courses 11—20 hours (IL)*	\$150.00	\$450.00
Courses 21—30 hours (IL)*	\$300.00	\$600.00
Vendor-conducted course**	See Schedule	Contact ITS
Online training (Combined Technical/Business)	\$190.00/yr	N/A
Online training (Technical)	\$140.00/yr	N/A
Online training (Business)	\$110.00/yr	N/A
<i>* Instructor Led Courses</i>		
<i>** The maximum charges for on-site, vendor-conducted courses are listed on the schedule. The actual tuition billed to each student may be less than this amount if there are more than eight students. Scheduling vendor-conducted courses on-site results in significant savings to the State for tuition and travel expenses.</i>		

Nonexempt Employees:

For state agencies who are sending nonexempt employees to classes meeting after normal working hours, the agency must evaluate their liability for overtime for these employees as provided by the Fair Labor Standards Act. If you have questions as to whether an employee is exempt, please contact the State Personnel Board. This statement does not apply to individuals who are paying for courses themselves.

Expanded Offering of On-Line Live Classes

The past few years, ITS and Systems IT provided you with Mentored Learning, where a student sat in classes with pre-recorded instruction supplemented by a live Systems IT instructor to answer questions. The only limiting factor was that the local instructor, aka “the mentor,” had to be an expert on the material being delivered in order to mentor you. Finding a local “subject matter expert” in every technology application is virtually impossible.

We now have access to the best instructors from the 300+ Systems ITCenters® around the world to teach all the most popular courses locally in Jackson, Mississippi. For the student it means sitting in a live class where you are signed onto a computer, viewing and listening to a live instructor, asking questions when you desire in real time, and hearing discussions between students who could be in Alabama, North Dakota or Ireland. The student still receives the live instruction everyone wants. For your agency, it means saving the travel expense involved in sending employees to an expensive, faraway city for training. The agency maintains access to its valued employee in case of an emergency. This is a “win-win” situation!

Now, in addition to the traditional instructor-led classes offered through local Systems ITsubject matter experts (Richard, John and Chris), we are able to offer Cisco, Citrix, VMware, high-end Microsoft, Oracle, high-end .net, high-end security, and an abundance of soft skill instruction here in Mississippi through ON-LINE LIVE. Your classmates in these classes are people from around the country that are just like you, with challenges just like yours, doing jobs just like yours. By taking a class with these other people, you will benefit from their questions, participation, and real life experiences.

The schedule of On-Line Live classes is listed on the following pages. PLEASE CALL SUSAN MCCLAIN AT (601) 432-8186 TO SCHEDULE AN ON-LINE LIVE CLASS.

**ALL ON-LINE LIVE CLASSES BEGIN PROMPTLY AT 8:00 A.M.
STUDENTS MUST ARRIVE BY 7:45 A.M. IN ORDER TO ALLOW CLASS TO BEGIN ON TIME.**
